* Did not meet minimum number of eligible graduates required to assess outcomes.

** Career Services conducts a survey of graduates based on the calendar year and reports the results at the end of the following academic year. There is an eighteen month lag in reporting to allow graduates time to find employment in their field. Results for students who graduated in the 2018 calendar year were reported in July 2020 for the 2019-2020 reporting cycle.
